## ANNOUNCEMENTS

We are authorized to announce the following gentlemen as Democratic candidates for Congress in this, the Ninth District, at the State primary, August 5th, 1916:

HON. W. J. FIELDS, OF CARTER COUNTY  
HON. J. W. RILEY, OF ROWAN COUNTY  
HON. J. B. HILES, OF BRACKEN COUNTY

## OUR STREET SITUATION

With an empty treasury and an indictment pending against the city for failing to keep up the streets, it seems to us there is nothing left for our city fathers to do but order them improved with brick or asphalt at the cost of the abutting property owners, as the statute provides, unless the property owners consent to have them re-surfaced with macadam. We fully appreciate the fact that to order them improved with brick or asphalt would work a very great hardship upon many citizens and that it is asking quite a little of them to expect them to defray the cost of macadamizing them, yet there seems nothing else for the city to do. They must be fixed in some manner and that seems to be the only way out of the difficulty. We believe that this course will be adopted and therefore desire to offer one suggestion and that is to hire some construction company with proper equipment, such as a scarifier, grader, roller, sprinkler, etc., to do the work. No local man has the equipment and if loose stone is dumped on the streets for the traveling public to drive around, the money spent will be practically wasted. Motor traffic is constantly increasing and the public today is demanding machinery improved roads and if it is determined to re-surface them with macadam, by all means the work should be done properly.

## BULLET REMOVED

Dr. Oscar Motley, of this county, who has been carrying a bullet in his face for several months, was operated on here by Drs. Reynolds and Cox last week and the bullet removed. The bullet has been giving him considerable pain recently, the wound refusing to heal, and the operation was performed successfully. The physicians now hope that he will soon recover from the wound and be restored to perfect health.

The farmers here have been waiting for a rain so they can set tobacco plants, as they have their ground in fine shape and plenty of nice beds.

The potato bugs are playing havoc with the potatoes that are coming up. Some gardeners are catching them, others are using Paris green, so it seems they are going to give the gardeners a chase this year.
